

Conflict Minerals Certification

To Our Valued Customers Worldwide,

As required by Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 pertaining to Conflict Minerals, Minco continues to work proactively with all of our qualified suppliers to ensure that our products do not contain any Conflict Minerals that directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo (DRC) or an adjoining country.

Based on assurances related to non-use of Conflict Minerals from our suppliers, Minco hereby declares that, to the best of our knowledge, our products do not contain Conflict Minerals or their derivatives: Gold(Au), Tantalum (Ta), Tungsten (W) and Tin (Sn). All products supplied have been designed and manufactured in compliance with the Electronic Industry Code of Conduct and Minco is committed to only source material from environmentally and socially responsible suppliers.

Our reporting requirements, as required by our Conflict Mineral Policy, for suppliers include:

1. Flow-down of the requirement for Non-Use of Conflict Minerals.
2. Requesting that our Suppliers report immediately if there are any Conflict Minerals or derivatives thereof used in supplied material.
3. As required, request that our Suppliers undertake commercially reasonable due diligence with their supply chain to assure that minerals used in supplied materials are not sourced from mines in conflict areas.

Furthermore, we expect our Suppliers to conduct their worldwide operations in a manner that does not result in labor or human rights violations in their roles as responsible corporate citizens.
